#### 1. Nature of operations

Green Shift Commodities Ltd. (formerly U3O8 Corp.) (the "Company") is a Canadian exploration company focused on exploration for uranium and related minerals; on the definition of resources and advancing these deposits toward production. The Company was incorporated by articles of incorporation dated December 6, 2005 ("date of incorporation") under the Business Corporations Act (Ontario). The Company's common shares are listed on the Venture board of the TSX Venture Exchange (the "TSXV") under the symbol GCOM.V, and on the OTC QB International under the symbol UWEFF. The Company maintains a registered and records office at 401 - 217 Queen St. West, Toronto, Ontario, M5V 0R2, Canada.

On October 18, 2022, the Company announced the completion of its name change from U3O8 Corp. to Green Shift Commodities Ltd. to better reflect the progression of the Company and its vision for the future.

#### 2. Basis of presentation and going concern

The Company is in the exploration and evaluation stage and it raises financing for its exploration and evaluation activities through the sale of equities. The Company has incurred a net (loss) income for the three and nine months ended September 30, 2023 of \$5,392 and \$(1,815,926) (three and nine months ended September 30, 2022 - net loss of \$(270,065) and \$(782,968)) and has an accumulated deficit at September 30, 2023 of \$110,405,187 (December 31, 2022 - \$108,589,261). In addition, the Company had a working capital of \$660,228 at September 30, 2023 (December 31, 2022 - working capital of \$2,540,637).

The Company has taken an impairment allowance against all exploration properties. Additional financings will be required to reinitiate pre-feasibility studies and further develop the properties and to continue operations. There is a significant risk that some, if not all, of the Company's current property holdings may lapse or title to those properties may become uncertain. While the Company's management and board will continue to search for financing, joint venture partners and new assets, there is no guarantee that they will be successful.

The consolidated financial statements have been prepared on a basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. The certainty of funding future exploration expenditures and availability of sources of additional financing cannot be assured at this time and accordingly, these uncertainties may cast significant doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include adjustments to the carrying values of recorded liabilities and related expenses that might be necessary should the Company be unable to continue as a going concern.

#### 3. Significant accounting policies

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IASB. These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements. The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of November 29, 2023, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2022, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2023 could result in restatement of these unaudited condensed interim consolidated financial statements.

#### 4. Share capital

#### a) Authorized share capital

At September 30, 2023 and December 31, 2022, the authorized share capital consisted of an unlimited number of common shares. The common shares do not have a par value. All issued common shares are fully paid.

#### b) Common shares issued

In March 2023, the Company closed the acquisition of LFP Resources Corp. ("LFP") and issued 17,500,000 common shares at deemed price \$0.14, being the closing price of the common shares on the TSXV. Pursuant to the Acquisition, the Company acquired all outstanding shares of LFP for consideration for an up-front payment of USD\$75,000 (\$100,680) (in long term prepaid assets at December 31, 2022).

On May 11, 2023, the Company closed the Pampa Litio S.A. acquisition paid \$150,000 in cash and issued 535,714 common shares of the Company at \$0.14 per share. (see Note 18)

On September 14, 2023, the Company closed the ALP acquisition and issued 1,600,000 common shares of the Company for \$152,000. (see Note 18)

During August 2022, the Company settled director, officer and management debt of \$359,428 for 2,416,319 shares with a fair value of \$326,203 and cash payments of \$60,500 resulting in a gain on settlement of account payable of \$27,275.

#### 8. Stock options

U3O8 Corp's stock option plan (the "Plan") was approved by the shareholders of the Company on June 30, 2009 and subsequent amendments approved on June 30, 2022, June 27, 2012, July 29, 2015 and August 7, 2020, for the purpose of attracting, retaining and motivating directors, officers, employees and other service providers by providing them with an opportunity, through share options, to acquire a proprietary interest in the Company and benefit from its growth. The number of stock options which may be granted under the plan is limited to not more than 10% of the issued common shares of U3O8 Corp., calculated on a non-diluted basis immediately prior to the stock option grant. The exercise price of options granted under the Plan is set at the "market price" of the common shares, which is calculated as the volume weighted average Canadian dollar trading price of the common shares for the five trading days prior to the date of grant. Options vest at the discretion of the board of directors of U3O8 Corp., and in the case of directors, officers, and employees, is generally contingent upon continued service to the Company during the vesting period. The Plan provides that all options outstanding will vest fully in the event of a take-over bid. As well, where there is a change of control, outstanding options granted to directors, officers and employees will immediately vest in full.

#### 8. Stock options (continued)

All options expire on a date not later than five years after the issuance of such option, subject to extensions granted in connection with black-out periods.

The Company records a charge to the statement of loss and comprehensive loss account using the Black-Scholes fair valuation option pricing model. The valuation is dependent on a number of estimates, including the risk free interest rate, the level of stock volatility, together with an estimate of the level of forfeiture. The level of stock volatility is calculated with reference to the historic traded daily closing share price at the date of issue. Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable measure of the fair value of the Company's share purchase options.

The following table reflects the continuity of stock options for the periods ended September 30, 2023 and 2022:

	Number of stock options	Weighted average exercise price (\$)	
Balance, December 31, 2021	1,223,000	0.19

Expired	(485,000)	0.16	
Balance, September 30, 2023	5,810,500	0.17	

- (i) On June 30, 2022, the Company granted 2,250,000 stock options to board members, management and consultants of the Company pursuant to the Company's stock option plan. The stock options were issued at an exercise price of \$0.16, vest in tranches of 25%, with 25% vesting on grant and the remaining tranches at six-month intervals and will expire on June 30, 2027. For the purposes of the 2,250,000 options, the fair value of each option was estimated on the date of grant using the Black Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 147% using the historical price history of the Company; risk free interest rate of 3.10%; and an expected average life of five years. The estimated value of \$326,971 will be recorded to share-based payments reserve as the options vest. For the three and nine months ended September 30, 2023, the impact on expenses was \$nil and \$nil (three and nine months ended September 30, 2022, \$81,743 \$163,486).
- (ii) On March 17 2023, the Company granted 500,000 stock options to a director of the Company pursuant to the Company's stock option plan. The stock options were issued at an exercise price of \$0.22, vest in tranches of 25%, with 25% vesting on grant and the remaining tranches at six-month intervals and will expire on March 17, 2028. For the purposes of the 500,000 options, the fair value of each option was estimated on the date of grant using the Black Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 153.95% using the historical price history of the Company; risk free interest rate of 2.89%; and an expected average life of five years. The estimated value of \$63,060 will be recorded to share-based payments reserve as the options vest. For the three and nine months ended September 30, 2023, the impact on expenses was \$54,627 and \$15,765 (three and six months ended September 30, 2022, \$nil \$nil).

Notes to Condensed Consolidated Interim Financial Statements Three and Nine Months Ended September 30, 2023 (Expressed in Canadian Dollars) (Unaudited)

#### 8. Stock options (continued)

On January 24 2023, the Company granted 50,000 stock options to a consultant of the Company pursuant to the Company's stock option plan. The stock options were issued at an exercise price of \$0.15, vest in tranches of 33%, with 33% vesting on grant and the remaining tranches at six-month intervals and will expire on January 24, 2028. For the purposes of the 50,000 options, the fair value of each option was estimated on the date of grant using the Black Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 153.50% using the historical price history of the Company; risk free interest rate of 2.93%; and an expected average life of five years. The estimated value of \$7,380 will be recorded to share-based payments reserve as the options vest. During the three and nine months ended September 30, 2023, a total of \$154,953 and \$175,589 in share-based payments (three and nine months ended September 30, 2022, \$nil and \$1,288) related to stock options granted and vested, have been reflected in the consolidated statements of loss and comprehensive loss (Note 11).

Stock option price volatility was based on historical price volatility of the common shares, which is assumed to be an appropriate and approximate proxy for future volatility of a stock option instrument granted for the underlying common shares.

The following table reflects the actual stock options issued and outstanding as of September 30, 2023:

Expiry date	Exercise price (\$)	Weighted average remaining contractual life (years)	Number of options outstanding	Number of options vested (exercisable)	Number of options unvested

#### 9. Loss per common share

The calculation of basic and diluted (loss) income per common share for the three and nine months ended September 30, 2023 was based on the loss after tax attributable to common shareholders of \$5,392 and \$(1,815,926) (three and nine months ended September 30, 2022 – loss after tax of \$270,065 and \$782,968) and the weighted average number of common shares outstanding of 94,723,354 and 89,155,694, respectively (three and nine months ended September 30, 2022 – 35,499,507 and 34,139,830). Diluted loss per share was not affected by including the 5,810,500 (three and nine months ended September 30, 2022 - 1,223,000) share purchase options and 39,964,157 (three and nine months ended September 30, 2022 - 5,874,141) warrants as they are anti-dilutive.

#### 10. Exploration and evaluation expenditures

The Company enters into exploration agreements or permits with other companies or foreign governments pursuant to which it may explore, or earn interests in mineral properties by issuing common shares and/or making option or rental payments and/or incurring expenditures in varying amounts by varying dates. Failure by the Company to meet such requirements can result in a reduction or loss of the Company's ownership interests or entitlements under the agreements or permits.

The following is a detailed list of expenditures incurred on the Company's mineral properties:

#### Colombia, South America

The Company holds a 100% interest in a mineral concession (the "Concession Contract") in Caldas Province of central Colombia. A Concession Contract for the Berlin Property was originally granted by the National Mining Agency in Colombia on October 23, 2007 for a 30-year period. On expiry of the Concession Contract in 2037, the Company has the right to apply for an extension for a further 30 years.

The Company is required to pay annual concession fees to the Colombian State for the right to explore those concessions that constitute the Company's exploration properties in Colombia. During 2021, the Company decided to re-establish operations in Colombia. As a result, the Company has accrued concession fees and expected penalties for 2021 and prior years. As at September 30, 2023, the Company has estimated that concession fees payable of \$1,635,944 are owed to the Colombian State to maintain the Concession Contract in good standing. In the event the Company's estimate of the amounts due is incorrect, it will adjust the amount of the accrual.

The amounts have been recorded as exploration expense.
